Ideation Phase
Brainstorm & Idea Prioritization Template

Date	31 January 2026
Team ID	
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Team member 1	Build an executive KPI dashboard showing Total EV Sales, Avg Vehicle Price, Avg Vehicle Range and CO2 saved, with a sales trend by vehicle category (2017-2027) to spot high-growth segments	Market performace	1
2	Team member 2	Compare manufacturers using production output by country and vehicle category, a bubble chart of customer	Manufaturing analysis	2

		reviews vs annual sales units, and 3-year retained value by category.		
3	Team member 3	Analyse battery technology (LFP, NMC, NCA, Sodium-Ion, Solid-State) by sales and battery cycle life, plus driving range distribution and charging power vs energy efficiency.	Battery and range technology	3
4	Team member 4	Map regional environmental impact: CO2 saved per year by market region and drivetrain (AWD, FWD, RWD) to support sustainability and policy decisions.	Sustainbility and regions	4

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/ Medium/Lo w)	Importance (High/ Medium/Lo w)	Priority	Selected (Yes/No)
1	Executive market dashboard: KPI tiles (sales, price, range, CO2 saved) and sales trend by vehicle category to identify top and highgrowth	high	high	1	yes

	segments.				
2	Manufacturer performance dashboard: production by country and category, customer review vs sales units, and 3-year retained value.	high	high	2	yes
3	Technology and sustainability dashboard: battery technology performance, driving range, charging vs efficiency and regional CO2 saved map.	Medium	high	3	yes
